PROFILE

Computer Technologies graduate with a completed bachelor's degree and experience in academic, personal, and freelance projects. Develops REST APIs with Java and Python, web applications with React and Next.js, and works with SQL and NoSQL databases. Seeking a junior role within a software development team.

TECHNICAL SKILLS

Backend: Java, MyBatis, Python, FastAPI, Node.js, REST APIs, JWT.

Frontend: JavaScript, TypeScript, React, Next.js, HTML, CSS, Tailwind CSS.

Databases: MySQL, PostgreSQL, MongoDB.

Tools: Git, GitHub, Docker, Pytest, Vercel, Azure, Microsoft Graph API.

SELECTED PROJECTS

Time-Fast | Academic project | August 2024 - January 2025

- Developed a REST API to manage customers, staff, drivers, packages, and shipments, including authentication and data validation.
- Developed a JavaFX desktop application, a Kotlin mobile application for drivers, and an HTML web tracker to view shipments and their status.
- REST API technologies: Java, MyBatis, MySQL, and Gson.

Auth System | Personal project | 2025

- User registration and login with JWT, password hashing, and protected endpoints. Python, FastAPI, MongoDB, Docker, and Pytest.

Campo Negro | Freelance project | September 2026

- Developed a mezcal brand website using the client's content and design. Next.js, TypeScript, and Tailwind CSS. Development completed; awaiting the client's hosting purchase.

EXPERIENCE

Community Service Placement | Universidad Veracruzana | 2024

Secretaría de Desarrollo Institucional · Started February 2024 | Duration: 8 months.

- Independently developed a SharePoint document management system using React, Node.js, Azure, and Microsoft Graph API. Implemented institutional account authentication and document viewing and editing based on SharePoint permissions.
- Provided technical support for computers and printers.

Operations Supervisor | Casa Ahued | March 2025 - September 2026

- Coordinated operations across 18 branches and their teams; monitored processes and organized information using Excel.

EDUCATION & LANGUAGES

Bachelor's Degree in Computer Technologies | Universidad Veracruzana | 2020-2025 | Degree awarded.

Technical Diploma in Computer Support and Maintenance | CBTis No. 35 | 2014-2017.

Languages: Native Spanish · English B2 (level reported by Universidad Veracruzana; no certification).
